**Registration:** Opens Monday, May 11—in person only—no fax's accepted  
**Time:** Monday-Thursday, 9:30 am—3:30 pm; Closed Fridays  
**Location:** SJ Willis Education Centre, 923 Topaz Avenue

- Registrations will not be accepted until May 11
- Faxed or emailed registration forms will not be accepted

More information is available on the [Summer School website](#).

## Spring Forensics Day: Crime Scene Investigation

June 6th, 2015 @UVic

UVic would like to invite (grade 10-12) students to participate in a full day of Forensic Anthropology at the University of Victoria on **Saturday, June 6th, 2015**. Sign-up for this event is done by the student independently.

This is an all-day event that will be held on the university campus at both indoor and outdoor locations. It's offered FREE of charge, and lunch will be provided. Space is however limited to 32 participants and priority will be given on a first come-first serve basis. We ask students to register individually, by email at [LTS@uvic.ca](mailto:LTS@uvic.ca) no later than **May 15, 2015**. [More Information:...](#)

## St. George's UL Medical School presentation at SMUS

**St. George's University of London** will be visiting St. Michaels on Monday, May 11, to give a presentation about its direct-entry program in medicine. We would like to extend the invitation to any interested students and their parents. The presentation is broken into two sessions.

### **3:45 - 5:00 in Crothall 116: Multi Mini Interview**

Ferdinand Bulmer from SGUL will provide information on an important part of the medical admissions process, the multiple mini interview (MMI). If enough interested students attend this afternoon session, he is also happy to facilitate a mock MMI to give students a (far less stressful) simulation of what the real thing is like.

### **6:00 - 7:30 in the Lecture Theatre: General Information**

Ferdinand will give a general presentation on SGUL's medical school: program overview, cost, application requirements, deadlines, etc. All interested students, parents and counselors in the lower island region are welcome to attend. Light refreshments will be served.

For any students at your schools who wish to pursue a career in medicine, this presentation is an excellent opportunity to help them understand the general process involved in direct-entry admissions, as well as learn more about one specific university's medical program and why it continues to attract many North American high school students each year.

Would you please let Mrs. Giesbrecht know if you will be attending so she can inform St. Michaels University. [sgiesbrecht@sd61.bc.ca](mailto:sgiesbrecht@sd61.bc.ca)

## DATES OF INTEREST

### **May 5 (\*note date change)**

Physics students trip to Playland

### **May 7**
