Android Phone Recycle

Upgraded to the latest device and have an older Android touchscreen device taking up space? The IT department is teaching mobile app development and mobile game design and would love your unused devices for students to test out their programs.

Our IT teachers will wipe your old Android devices (phones, tablets, e-readers, etc...) to ensure privacy and put them in the hands of students for testing and app development.

Drop your devices off at the Oak Bay office c/o Jeff Laird
