Student Learning Survey 2024

The Provincial Student Learning Survey is unique in its scope, size and usefulness to schools. It gathers information from parents/guardians/caregivers, teachers, and students on topics related to school environment, safety, and achievement. The information is used for planning in individual schools and provides a district and provincial perspective.

In early March, the Student Learning Survey will be administered to students in grades 10 and 12, their caregivers, and all school staff. We encourage all caregivers to participate in this survey, as the results are important in identifying and celebrating current strengths, as well as determining where the school needs to focus improvement. The surveys contain standard questions for the Province – in addition, questions from the school and/or district that focus on local conditions or issues may be included.

The survey can be completed electronically and can be accessed on the Internet at http://www.bced.gov.bc.ca/sat_survey. Any computer with an Internet connection can be used, and access to the e-survey is simple and secure. The survey can be accessed through the link with or without an anonymous logon code by selecting the school district and school name where your child attends school. Provincial, District and School Reports for previous years can be viewed at the same site under the *Results* section.

The e-survey site will be open until May 3rd.

If you have any questions, please contact the school administration.
