Earth Day

Tuesday April 23 was Earth Day, a time to stand up for the environment and promote sustainable living for current and future generations. The students of Oak Bay marked the event by planting 300 native plants in the rain gardens beside the upper parking lot. The rain gardens filter the runoff from the parking lot, and the plants will capture pollutants that would otherwise go down the storm drain into the nearby Bowker Creek. The students are in Mr. Schrubsole's Science 10 Disco class and Mr. Zolbrod's Env Science 11 class. The project was supported by a grant from Thrifty's Food to the Friends of Bowker Creek to purchase the plants from Satinflower Nursery. Friends of Bowker Creek, Peninsula Streams and Shorelines and SD61 staff helped to organize the event. Thank you to everyone for their support. See [pic](#) of the event.
